

PLASTIPEARL

Dee Veterinary Products' PlastiPearl is available in two sizes: 6-pack boxes and one gallon containers. PlastiPearl is for both out-patient and in hospital use. Easy transfer to leakproof sample urine cups are supplied. The disposable litter granules are designed to lift urine for easy retrieval. PlastiPearl makes obtaining feline urine samples easy.

To simulate standard litter, place a few ounces of PlastiPearl into a clean plastic litter box or pan. The pellets will allow for retrieval of urine, stool, vomit or other specimen satisfactory for most laboratory evaluations.
